To the class of 2011...

Throughout the years of attending Barnstable High School, it has been an emotional experience with memories that will last a life time. With new changes comes a new feeling of school spirit. The addition of Mr. Clark, Mr. Pyy, and other new staff have helped us start to create a new beginning at Barnstable. The new artificial turf and track to be used by the students have stirred up new excitement, as the class of 2011 we will be the first to graduate on the new field! This year we will be saying goodbye to our superintendent Dr. Grenier. Closing the doors with us at Barnstable is our terrific fairy godmother and senior advisor, Mrs. Mason, as well as Mr. Sullivan, Ms. Raftery, Ms. Collins and Ms. Bernon. They have all made great contributions to our school, become close with many of us, and we wish you all the best. Many memories have been created here at Barnstable. How could we forget the Thanksgiving game wins against Falmouth these past two years, and this year's score, an impressive 46-14?! Seniors dominated in their junior year in the annual dodgeball tournament and our boys varsity soccer team won the OCL Championship for the first time in school history. We'll always remember the junior prom, as the stars in the senior cafeteria are a constant reminder. Siobhan Magnus proudly represented Barnstable throughout her American Idol journey, as we cheered her on at home. As our chapter here at BHS closes, a new beginning is on its way with new experiences to look forward to with friends from our senior class. Congratulations, Class of 2011!

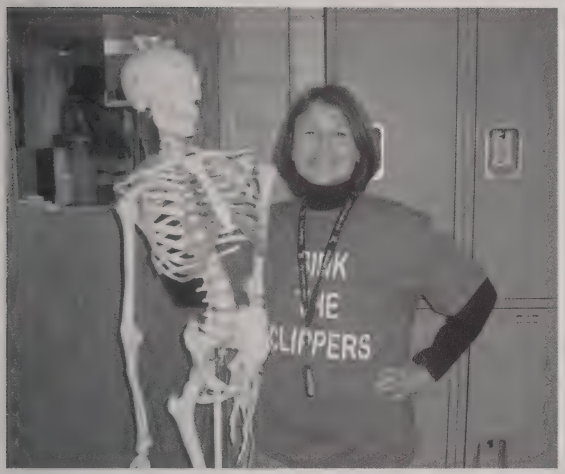
Never Forgotten



Carol Bernon

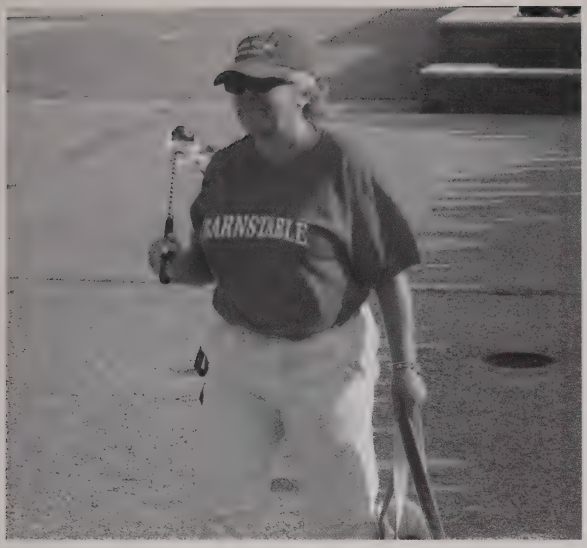
Mrs. Bernon is a teacher that takes her job seriously and works hard at it. She made our class fun and she taught us well. I feel that I, personally, learned a lot from her especially from all the labs we did. Mrs. Bernon is a good teacher and I hope you have a nice retirement.
--John Kravitz

Eleanor Collins

The first time I met her she had two pony tails on the side of her head and had a huge smile on her face. Although the smile never left the pony tails did and I've come to realize how nice of a person she is. The one thing anyone will remember Mrs. Collins for is making you say "Ricky Bobby and I," not "Me and Ricky Bobby." She would also push you to do your best even when you did not want to. Altogether Mrs. Collins is a great person and everyone who knows her can agree. -- Kyle Fontaine

Patti Grenier

Dr. Grenier has helped Barnstable schools overcome great obstacles, particularly the budget crisis and necessary school closings, by creating a smooth transition for students and staff. This is a legacy that will last for many years. We wish you nothing but the best in your retirement. Have fun with your grandchildren.
--Kelsey Tynan, Lexi Veara, Jack Tobin



Mary Jo Mason

Mrs. Mason is a not only a wonderful teacher but a wonderful person as well. She is so generous and cares about her students so much. She tries her best to make sure everyone is happy and enjoying their high school experience. As a freshman I had Ms. Mason for my teacher in basic foods and nutrition class and it was easy to see her passion for students and that she truly loves her job. She really is the class of 2011's Fairy Godmother and no one could have done a better job as our class advisor. --Danielle Zaino

Mrs. Mason is one of the greatest women I've ever met. She's strong, influential, and all around amazing. These last two years in her Child Development classes were an awesome experience. Mrs. Mason, I love you to death and I hope your retirement will be a great one. Best Fairy Godmother ever?! I think so :) <3 With love, Lauren Zent

Marcia Raftery

In her class I always had a good time and always had something good to eat. Mrs. Raftery helped me to learn the basics of food service and better prepared me for my path to becoming a chef. Thank you for everything and happy retirement.
--Sean Donahue

John Sullivan

Mr. Sullivan is a teacher who broke the mold. He will never be replaced and will always be missed. From bringing the first computer to Barnstable High School, to helping create the massive addition to the original school building now called the Performing Arts Center, Mr. Sullivan has accomplished more than most others in Barnstable High School history. He is a teacher that went to infinity and beyond in the animation studio and on our multiple stages. He is a mentor for all that has impacted many students and their careers far beyond high school. "In this world you will have trouble. But take heart! I have overcome the world." -- John 16:33

It is scary thinking about where I am right now, in less than a year it will be time to move out and head to college. As scary as that is, it is exciting that real lfe is finally starting. And even though we are all bound to suffer at some point in our lives, just remember that no matter how difficult things get, God will stay faithful to you, and all things are possible through Him.

I am so glad high school is over! I've done my time and I'm ready to leave. Moving here last year was daunting and I was afraid that I wouldn't make any friends. But I was happily proven wrong. I have made so many great friends. You all know who you are. I wish everyone good luck in all their future endeavors. ^____^

"Regardless of warnings, the future doesn't scare me at all." -- Utada Hikaru

I spent a while trying to figure out which inside jokes I should load this up with, and I came to the conclusion that I can't summarize BHS into a little 576-character mass of jokes that no one understands. All I know is that I'm happiest when I'm sitting in a car, or on a trampoline, or just sitting, with my closest friends. Laughing. I feel the most alive. So let's stay an us and let's keep our eyes the size of the moon. And even though I insist I hate more than I love, please know: if you took the time to read this, I love you, and I hope you succeed.

Larissa Araba

Dear teachers, I want to thank you for a great year. Teachers gave me the courage to never stop trying and by doing that I made myself successful. Without you, I would have never made it this far. Thanks for never giving up on me.

Senior year already? It's been a quick four years and I've enjoyed every second. I want to thank my parents for pushing me to do good in school and having faith in me. I never could have done it without friends and family, and a certain girl I met sophomore year. She's been there for me through everything and anything. Thank you Moriah. You are truly a great friend. It's been real B.H.S...Dueces.

There are so many people that I would like to thank. First off to my Mom, my Dad, my Brother, and both of my sisters. For raising me and giving me light in the darkness. Also to my teachers, mentors, and friends, especially for Mr. Curry, Mrs. Swindler, Mr. Devlin, and Mrs. Jackson. Mr. Curry, you helped me when I needed it most. Mrs. Swindler, you are the closest thing I had to a mother this year. Mrs. Jackson, you put spice into my life and made me laugh. And Mr. Devlin, you pushed me, you make me work, you didn't let me quit, and you kept me going. To all of the underclassmen in this school, PLEASE keep your chin up. This place is amazing if you give it a chance. I don't know what I'm going to do without being at this place till 9 working on graphics, but I'll figure something out.

When people say time flies it really does. It feels like only yesterday I was walking through the doors as a freshman. I want to thank my family and my friends who have been by my side through thick and thin. I honestly don't know how I could have gotten through it without all of you. And now that we are all heading off into the real world we are going to look back and see how much fun we really had I can't wait to go off to the real world, but a part of me is going to miss all of the friends I made throughout high school, but I can't wait to make new friends.

I would say that this is it, but in all honesty, it was merely just a stepping stone as to what will come later on in life. I've learned so much, and met so many different kinds of people. Some remained close to my heart, others are simply faded memories. I just want to say thank you so much to everyone who has made a difference in my life, and helped me become who I am today. I'm ready to get out there and be my own person, ready to be who I want to be. This is my life, and in Kanye's perspective, I'm ready to "Touch the Sky".

"How many roads must a man walk down before you call him a man?" – Bob Dylan

With every stride we take from childhood to manhood, the flow of our beings continuously strives to decide what and who we truly are, to ascertain the purpose of this life. Society dictated that we all attend this school in order to become "educated". Well, we are educated, but rather from the experiences that were purely our own. Friends, peers, lovers, enemies have taught us more of ourselves than any intended education could have. The students are the school and we are the students. But now we are no longer confined by these walls of stone and the wind shall take us to new horizons, educating us through new experiences shared by people we love respect or even hate. So never stop journeying on the roads of life and forever seek to see what is just around the bend.

"Potential is an ugly word. It discusses only what power lies within, but that what is but a where unless it is without."

I have built my high school reputation on silliness, rebelliousness, shortcuts, ambition and sometimes even shyness. For a long time now, I have thought that maybe the waters of my reflection do not have any light, just a series of ripples dissipating over time in a would-be wave. But now I realize that I have accomplished so much for myself as an individual, and that I have done it with the help of great friends. Without my friends, I would be nowhere -- you are the people that make me. Cheers to the moonshine and the sunrise.

"Dream as if you'll live tomorrow, live as if you'll die today."

The essence of life is a series of twists and turns that are always changing. Like from season to season or dusk to dawn. Yet every thing, through these changes, finds ways to adjust and cope with it and keep functioning. And in spite of how many changes I've been through within life, I've realized the impact attitude has on it. Attitude in my opinion is more important than facts, appearances, or any amounts of money. The attitude you have towards existence, which is hopefully positive, will help you to manage to the adjustments that life throws at you. As long as your free and independent and you love yourself you can conquer any obstacle that is in your way. Don't be afraid.

"Judgements prevent us from seeing the good that lies beyond appearances." -- Wayne Dyer

What high school comes down to is the people who are most important to us; my sisters, Travis Manni, and Carly Williams. Considering I'm really only 1/3 complete without my darling sisters, I couldn't have gone through any part of my life without them, while Travis Manni, Carly Williams and Malcolm Fano are probably the only people in the world that know me completely. I love them! So instead of focusing on people who don't matter, we should focus on the people who do. Steve-san taught me that.

The end has finally come to these four short years of laughter and disappointment, triumph and heartbreak. In some moments, it felt as if the last day would never arrive; that I would never be free from this juvenile cage of adolescence. And others, I couldn't cling tight enough to the precious time that I could feel swiftly slipping away. "Who can say if I've been changed for the better, but because I knew you I have been changed for good." -- Wicked

I don't want to be that guy who prattles on about how amazing the last four years have been, attempting to convince the uninterested reader about how they "flew by like crazy." Because, honestly, years from now I won't be talking about how this school changed me. I'll be laughing at the memories of sitting in a jeep eating old chinese food, avoiding as much physical labor as possible (Athena, Andrea, and Arianna; I am so lucky to have ever known you.) Or sitting in a Junior class and playing with Play-Doh (BMD+LMA+MLS.) I'd also like to thank MIL, my sister, and Ms. Welch.

Beginnings are usually scary and endings are usually sad, but it's the middle that counts. You have to remember this when you find yourself at the beginning. It's hard to believe that this is the end, the end of the high school road. I'm pretty excited, but a part of me doesn't want to leave. After this school year, everyone will be going their seperate ways and that's pretty heartbreaking. Before we even take that turn, I just want to thank all of my family and friends for helping me get this far. So thanks to my friends: Uzuri, Javonna, the Rachels and of course Chris. Love, Mireya.

So if you know me, you would know I was the kid who got up in front of the whole school to sing a song dedicated to Jordan Mendes. It was an incredible experience, I personally think it made me who I am today. The adrenaline I got from hearing the crowd within seconds of the song was breathtaking. It made me feel useful and like a steering wheel, because at that moment I took control. I wanna keep it short but thank you to the Gyras,Chen,Wytrawl,Swindler,Linehan and Leblanc for being the down to earth understanding teachers. You make us kids feel accepted and appreciated.

"Oh the places you'll go..." Let's see, it has been about 720 school days since we started as freshman here at BHS. From the rough algebra classes to the rotating blocks that have been diminished. We did get a whole twenty minutes of extra sleep time in the morning between our sophomore and junior years; wow, look at the evolution. Senior year is what we waited for and now it is time to move on from the big brick building on W. Main. Mom and Dad- thank you so much for your love and support. "Today was good. Today was fun. I was on a PC when I was about 4 & have loved tech. all my life. I have also, & still, enjoy Legos & building things. When I got into video games, & anime, I discovered cosplay & it sparked a love for props, fusing my love of building & tech. My junior year I was going to drop my animation class & talked to Mr. Sullivan. I told him about my love for props & he asked if I wanted to do it in school. I'd like to thank him & my parents for letting me follow my passion. My advice to others, is to voice your creativity sooner so you have a chance to follow them right away!

"I aim for the moon and if I miss I will land amongst the stars."

I would like to thank the following teachers for helping me for getting where I am today: Mr. Taylor, Mr. Wanat, Ms. Collins and Ms. Carrey. These teachers believed in me and pushed me to do my best, they give me the courage to do what I never think I would be able to do so I give them my deepest thanks. The great friends that I met at Barnstable will never be forgotten all the good times I had over the two years that I have been here is the best two years of my life.

God Bless to all my brothers JK1, JK2, CK, Tay Tay Jackson, and my best friend Bobby Jackson. We all made it through the trenches and the brotherhood stays strong. Thank you to the zooq and zolo Red Raider football teams; you are all my brothers and I wish you the best of luck. If it wasn't for family, I would not be where I am today. I owe it all to my Aunt and Uncle, they took me in when I had no place to go.

Okay, listen up: I like it here, but enough is enough. I have done my time. So to all the teachers over the years who influenced me and made an impact on my life: Thank you. To my loving parents, thanks for all your support. Thank God it's finally over. Peace, BHS.

"Just when you think you have no one to talk to, just remember that God is always listening."

Wow, no more high school! I remember when I was the new girl my sophmore year. I was so nervous. I didn't know anyone for three weeks. I hated it here. And look at me now: I met plenty of new people and am friendly with pretty much everyone. I wanna thank my mom for being a mother and a father. I'm sorry that I don't show you all the love you deserved, and how I have anger issues. You're my number one woman though! I slacked my junior year so I distanced myself big time senior year because I really had to turn my grades around. I hope I have a bright future ahead of me.

So I didn't think I was going to graduate this year. I have to thank my mom, dad, and my brother Joe! Thank you all for supporting me. Lauren Elizabeth Zent, Javonna Baldwin, I love you both to death! Thank you for being there for me through these four years. I don't think I would have been able to survive without you. All my guys I love you too; KJ, JD, LD, PS, EM, CL, RA, TM, JM, okay drawing a blank LOVE YOU ALL! CONGRATS CLASS OF 2011, WE DID IT! EVEN ME :) P.S. Thank you Mr. Sullivan, I know I'm a pain HAHA XD <3.

High school's finally over! And surprisingly in 4 years. I can still remember the first day of freshman year. To everyone who's made it worthwhile, I can't thank you enough. With so many memories in this place I'm definitely gonna miss it. But not that much! So good luck everyone and peace out BHS. It's time for life to start.

I finally made it! Glad this time has come. This chapter in my life has ended and a new one begins. I hope and pray that I am successful and achieve all of my dreams. Thank you to my family the Mahabirs for the love and support and thank you for accepting me for me. I wouldn't have made it this far without you guys. Next, Ravi you really have made a big difference in my life and I'm glad you're in it. Also thank you Mom and Dad for raising me to be the woman I am now. You have really impacted my life. I love you all. But for now I am going to give it my all because I have nothing to lose.

It was a Halloween of traditions for Barnstable High School in the year 2010. The school held its 30th annual Costume Contest. Students and faculty got out their best Halloween costumes, featuring everything from The Incredibles to lifeguards. The Drama Club also worked with the town of Barnstable to put on its first ever March of the Horribles Parade in honor of Siobhan Magnus, a local American Idol contestant and BHS graduate. The community was invited to dress up and march down Main Street in Hyannis and then gather at the Village Green for a performance by Siobhan.

Thankful

Our School Spirit

Did you know? There is a special tradition with building M where every player taps the top of the door before a game for good luck.

Our cheerleading champs work the field with their award winning choreography and top notch school spirit!

Great job to our state champ volleyball team! They stand on the field with pride, respect and honor as they are recognized for their hard work and dedication.

Our school flag waves majestically on the field during a beautiful rendition of the National Anthem.

Excited BHS students gathered at our new field to cheer on our football team...who beat Falmouth 45-12!

Our team's traditional "Who are we?!?!" chant helps to get them fired up for the big Thanksgiving game! I wonder whose house they went to for their traditional "Team Pasta Dinner"?

Our players warm up for the big game with a quick lap around the track.

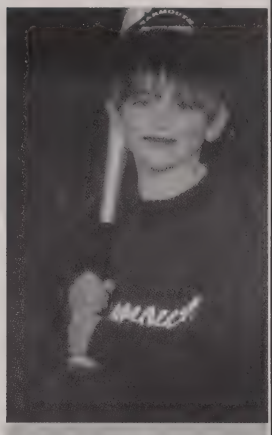
There are no failures only success
and lessons learned.



Take your time don't live too fast
Troubles will come and they will pass
All that you need is in your soul
Don't worry you'll find yourself
Follow your heart and nothing else,
and you can do this if you try.
All that I want for you my son,
is to be satisfied and to be a simple kind of man
Be something you love and understand

As you pursue your dreams,
remember to take time to help and serve others,
even if doing so slows you down a little.
As you explore and develop your unique talents,
remain humble,
realizing that your special abilities
are gifts from God.

As life hands you challenges, welcome them
as ways to become smarter and stronger.
As you acquire material things,
know that your most important possessions
are honesty, integrity,
and the desire to make a difference.
May your new path take you where you want to go
and also bring you pleasant surprises.

ALEXANDER

Your name comes from the Greek, which means Warrior or Defender of Men. This name is yours and it suits you perfectly. Love it as you love yourself, for it will be with you the rest of your life. Like the great conquer who is your namesake,you have the stuff of a champion. Your inner life is precious to you and to all that know and love you. You are blessed with a rare strength of character, you don't easily lose heart. Integrity is your guide, and honesty the path you walk down.
For you, friendship is invaluable, and your friends know they can count on you, for you will never betray them. Greater charmer that you are, your charisma is irresistible and yet you remain loyal to the ones you love.
You have conquered one and all, and thus are worthy of your name.
We lovingly named you and are very proud of all your accomplishments. God Bless you. Congratulations! Love, Mom & Dad.

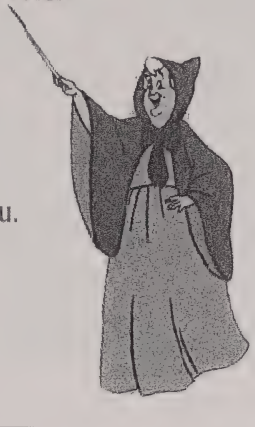
While there are many different roads
that we take in life,
it is those who walk with us
that make the journey worthwile.
John Sullivan Drama Coach 1978-2011

"If ever there is tomorrow when we're not together... there is something you must always remember. You are braver than you believe, stronger than you seem, and smarter than you think. But the most important thing is, even if we're apart... I'll always be with you."
Christopher Robin to Pooh



I love you class of 2011.
You have made my life more fun to live.
You have taught me more than I could ever teach you.
and
You have reminded me to believe in magic!
